

## E-RSD-100

### SAMPLE SPLITTER / DIVIDER

#### ■ DEFINITION

E-RSD-100 Sample splitter is one of the most important unit of Elimko sampling systems. It divides the sample material by means of a rotating cutter. It has two units;

1. Collection hopper
2. Divider

Sample material is collected in the collection hopper. Divider and discharge feeder under collection hopper start running when the weight of the collection hopper reaches to set value. Divider is a rotating cutter and it divides the sample with the predefined ratio.
