

INSET AND THERMOCOUPLES WITH INSETS

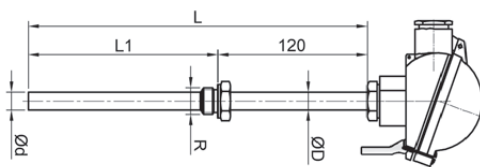

Elimko Inset Type and Inset Thermocouple Coding

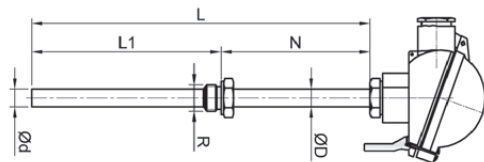

Straight type thermocouples coding table is applied exactly for the selection of the thermocouples of the inset type TC03, TC04 and TC30. For this type of thermocouples length is written in cm. Length for inset types are written in the code list in mm. Also the lengths to be installed inside the standard lengths are standard.

EXAMPLE: TC05 - 1 J 1 P 06 - 315 / TC05 - 1 K 1 P 08 - 430
